International Morse code:

each ● takes 1 unit of time

each — takes 3 units of time

each 'in-between' takes 1 unit of time.

The code for **J** is ● — — —

How many units of time does it take?

(Remember the in-between units!)

1m

Three letters have different codes.

Each of these codes takes **5** units of time.

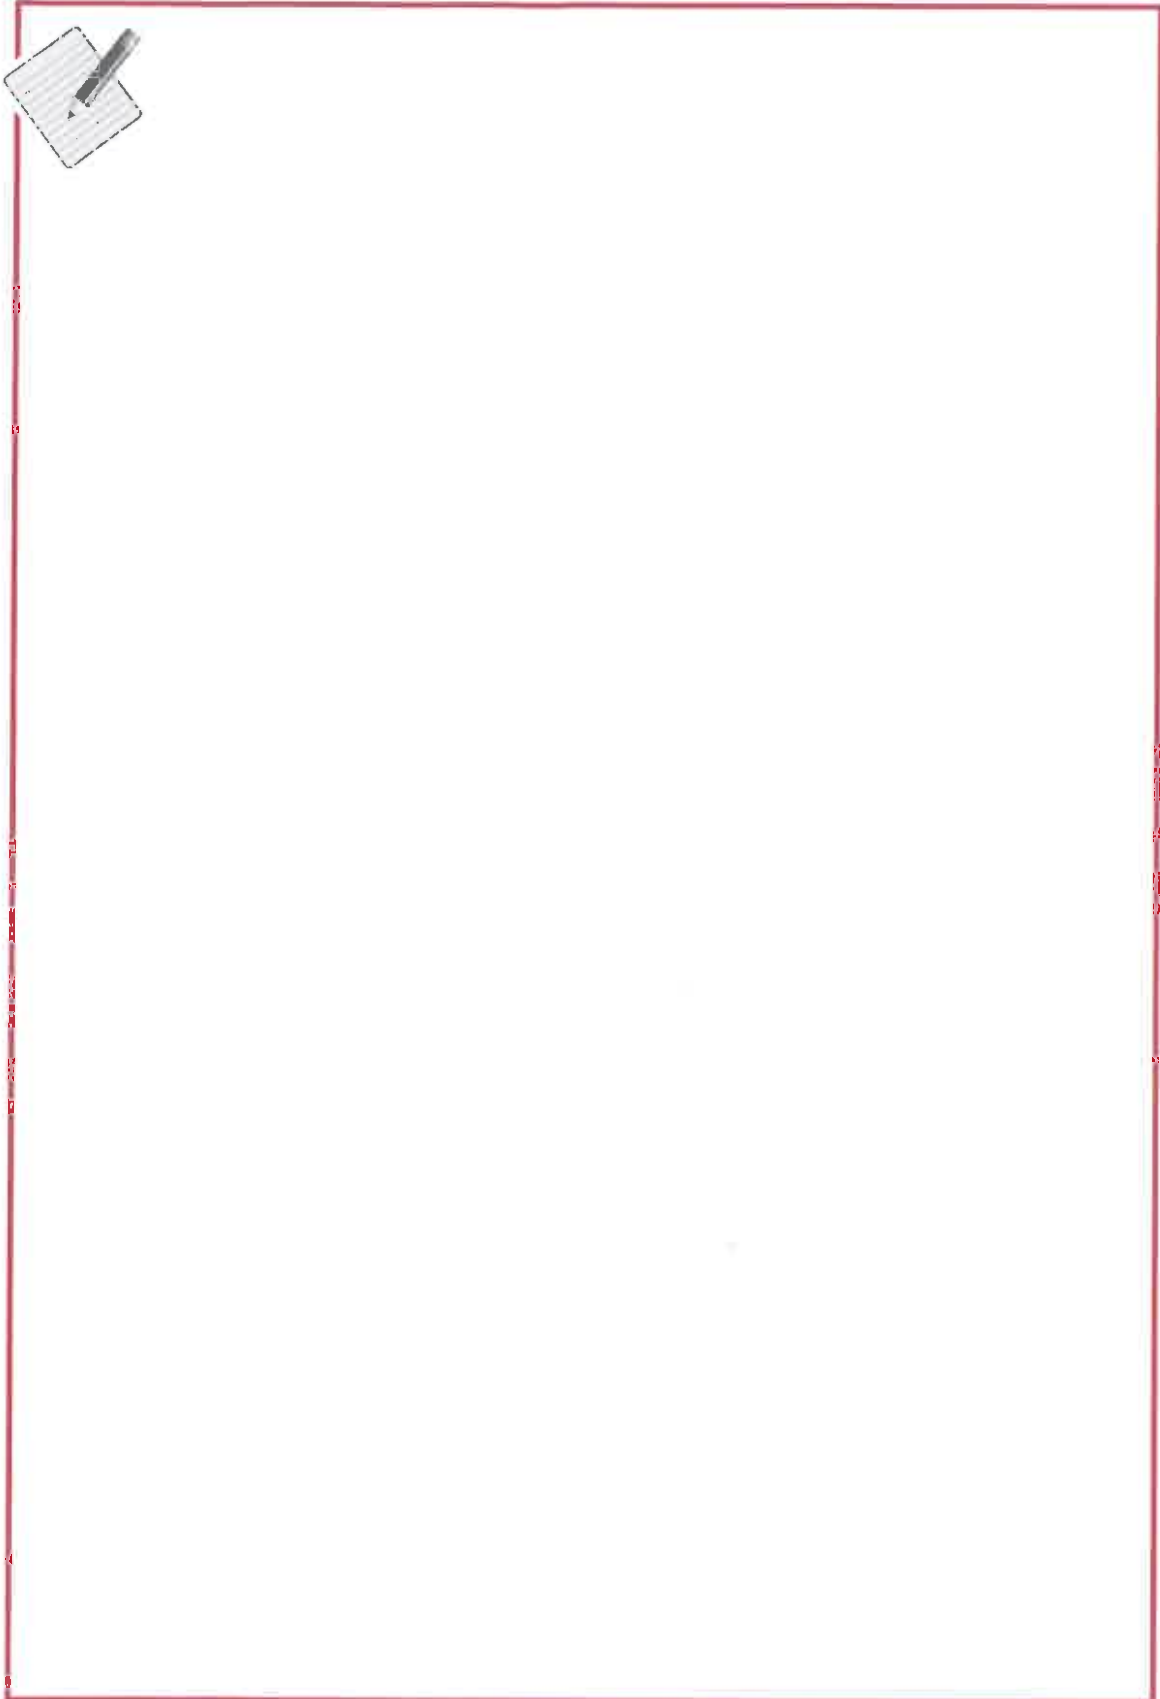

What are the **three codes**?

A large rectangular box with a red border, intended for writing the answer. In the top-left corner of the box, there is a small icon of a notepad with a pen resting on it.

2m

Every letter in the English alphabet has a different code.

Explain why each of these codes **must** have an **odd** number of units of time.

This 'Christmas tree' is made from cubes that are all the same size.

They are arranged in **seven layers** to form a solid square-based pyramid.

In each layer, the cubes around the perimeter are green and the others are white, e.g.

layer four

Altogether, how many **white cubes** are there?

Show how you know.

3 In a hurdle race, each runner jumps over hurdles.

400 metre race: ten hurdles altogether		
Start to the first hurdle	Distance between each pair of hurdles	Last hurdle to the end
45m	35m	40m

Nia wants to have ten hurdles in a 625 metre race.

625 metre race: ten hurdles altogether		
Start to the first hurdle	Distance between each pair of hurdles	Last hurdle to the end
45m	?	40m

What should the distance between each pair of hurdles be?

m

My 13th birthday was on a Friday.
My 14th birthday was on a Saturday.

There are **365** days in a year (or 366 in a leap year).

How does that explain why your birthday is usually **1 day later** each year?

5

In a survey in a restaurant:

two-thirds of the people said the food was good, and
one-quarter of people said it was average.

Five people said the food was poor.

How many people took part in the survey?

	Good
	Average
	Poor

Here are two cogs.

The bigger cog has **30 teeth**.

The smaller cog has **20 teeth**.

The bigger cog turns **180 degrees clockwise**.

Give reasons why the line on the smaller cog must now be in this position.
